## Course overview

Do you lack confidence with numbers? On this course, you will use the HHK's fun, engaging, online sessions to help grow your confidence with maths.

From working out your household budget, to helping your kids with their school work, there is a module for you.

## Course description

This course focuses on practical skills. It won't be like school, you will learn skills that will make you more confident and help you make better choices, from healthy eating to getting a good deal.

This could be the first step towards a new job, further education or just a new number-confident you. On the course you will:

- Understand how numeracy is applied to different real-life scenarios
- Demonstrate numerical calculations
- Demonstrate an understanding of mathematical vocabulary
- Apply maths skills and knowledge to solve real-life problems

You will need internet access and access to a laptop or mobile device.
